ABOUT ME

Motivated and detail-oriented UI/UX Designer with a strong interest in creating user-centered, intuitive, and visually appealing digital experiences. Skilled in wireframing, prototyping, user research, and responsive design using modern design tools. Passionate about understanding user needs and transforming ideas into seamless and engaging interfaces. Eager to contribute creativity, innovation, and a user-focused mindset to build impactful digital products.

COURSES & CERTIFICATION

UI/UX DESIGN CERTIFICATION FROM TN SKILL CORPORATION

Certified UI/UX Designer with training in user research, wireframing, prototyping, and responsive design. Passionate about creating intuitive and engaging user experiences through design thinking and user-centered design principles. Seeking an entry-level UI/UX Designer role to contribute creativity, innovation, and problem solving skills.

DOCKER CERTIFIED PROFESSIONAL

Aspiring IT professional with IBM SkillsBuild certification in Docker Essentials. Knowledgeable in containerization, application deployment, and modern development workflows. Passionate about cloud computing, DevOps, and emerging technologies, with a commitment to continuous learning and professional growth.

PROJECT

Project Overview:

An AI-powered virtual travel assistant currently in the early development stage, designed to help users explore tourist destinations and nearby resorts. The platform focuses on intelligent recommendations and location-based information.

Development Focus:

The project emphasizes scalable architecture and structured travel data management. Future enhancements include automation, real-time insights, and advanced AI-driven assistance.
